By Kappa Map Group : Cincinnati / Northern Kentucky Atlas cincinnati was founded in 1788 when mathias denman colonel robert patterson and israel ludlow landed at the spot on the north bank of the ohio river opposite the amazons prime air hub at cincinnati/northern kentucky airport will support amazons fleet of prime air cargo planes pictured above hebron ky Cincinnati / Northern Kentucky Atlas:

2 of 2 review helpful Disjointed Hard to follow By flyingkiwi Disappointed with this map atlas it is very hard to follow between maps as many of the numbers telling you where to go to the adjoining map are missing It usually takes more time looking at the atlas working out where to go than it takes to travel Not recommended Atlases by Kappa Map Group typically provide indexing color coded travel routes ZIP codes and ZIP code boundaries They also

normally identify boundaries railroads block numbers golf courses parks hospitals schools universities cemeteries shopping centers and points of interest Map books are treasured as travel guides because of their convenience detail and area of coverage
