2 of 2 review helpful A Good but Misnamed Book By Tori L Wilfred This book is obviously well researched though I think that more information on other parts of Ohio could have been included as well It s obvious that the author concentrated on his area of Ohio I would love to see a few sequels to this book I d buy them However my biggest complaint is the title it is very misleading I expected stories of haunted p Towns come and towns go Travelers sometimes have to move in the fourth dimension Randy McNutt takes us on an eccentric travel trip to dozens of Ohio ghost towns uncovering tattooed chickens legendary daredevils swamp ghosts milkmen who delivered milk and whiskey and a fella who bit off his mother in law s ear Handsome illustrations 80 pages
